Puzzles that Fit Perfectly From ImagiPLAY

ImagiPLAY makes beautiful toys that inspire the imagination, encourage discovery, and promote positive values.

Children are born with an amazing capacity to learn through imaginative play. Open-ended toys provide a springboard for young minds.

Every one of ImagiPLAY's toys makes me want to be a kid all over again. One of the biggest joys of being a parent is the opportunity to experience the world through the eyes of my child--and I anticipate hours of enjoyment for the family with ImagiPLAY's wooden puzzles and play sets.

You would have thought it was Christmas for Daddy when we opened **A Day in the Kingdom**. The castle, royal family, archers, and knights provide the perfect backdrop for a child to invent scenes of adventure and intrigue. The chunky wooden figures are easy for pre-schoolers to grasp and the sturdy construction will endure even the most vigorous and active play.

The **Bear and Cub** puzzle is even more adorable in real life than on the website. The rich, warm tones compliment the tender pose of the mother and baby bear. With just a few large pieces, this makes a great first puzzle for toddlers, as well as a gorgeous nursery decoration. Eventually, you'll be able to pass these toys down to future generations.

ImagiPLAY's beauty is more than skin deep. Their corporate philosophy shows a deep commitment to children, communities, and the environment:

Every toy we produce is earth friendly, child safe and people kind. That is our commitment to our children and their planet.

From the materials, to the manufacturing process, ImagiPLAY is a company that is about building toy castles and a brighter future.
