★ Number Snail Puzzle at Wild Dill

I've always been a fan of 3D puzzles, and there are a bunch at Wild Dill that are really cute. The [Number Snail Puzzle](#) is great because it can teach numbers and colors as the toddler learns to put it together. Some others I like include the [T-Rex Puzzle](#) and the [Penguin Puzzle](#). Each puzzle is made of plantation grown, chemical free rubber wood and child safe paints. They are also fairly made in Asia.

Also, just for Super Cool Baby readers, get 15% off at [Wild Dill](#) with the code **scb15** at check out.
